

Adaptive Evolution of Complexity

Dalhousie University, Canada

Joseph P. Bielawski

Department of Biology
Department of Mathematic and Statistics
Institute of Comparative genomics
Dalhousie University, Halifax, Nova
Scotia, Canada

call me: Joe
pronouns: he / him

e-mail: j.bielawski@dal.ca

www.bielawski.info

Research :

- Functional complexity of genes & genomes
- Complex interactive functions at higher levels of biological organization (e.g., communities)
- Multi-level selection and adaptation
- Modelling adaptive evolution
- Microbiomes & Metagenomics

I am also part of "**The Evolutionary Gaia Project**":
